TECHONLOGY USED

In my project, I have harnessed the power of several cutting-edge technologies, each playing a crucial role in delivering a robust and modern solution.

MongoDB

ReactJS

ExpressJS

HTML

CSS

FUTURE SCOPES

OTHER PETS

In the near future, users will discover services and products designed not just for dogs and cats, but also for a variety of other domestic pets.

ADD TO CART

With the "Add to Cart" feature, users can easily buy multiple things and remove anything they don't want, giving them more control over their orders.

GET OUR SERVICES

With the introduction of these services, users can now embrace the opportunity to enjoy in the offerings and relish the luxurious experiences we provide.
